## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 31 is rejected under 35 U.S.C. 102(b) as being anticipated by Conway et al. (U.S. Patent 5,137,671). Conway et al., hereafter "Conway," show that it is known to carry out a method of making a disposable balloon for use in a catheter system (Abstract), the method comprising providing a mandrel having an outside surface defining a desired internal shape of the balloon (Figure 8, element 26); providing a container having a biocompatible liquid silicone disposed therein (Column 7, line 15); dipping the mandrel in the liquid silicone to form a coated mandrel (Column 7, lines 15-16); removing the coated mandrel from the liquid silicone (Column 7, lines 18-20); heating the coated mandrel in an oven to form a heat cured balloon (Column 7, lines 42-45); removing the mandrel and heat cured balloon from the oven (Column 11, lines 27-28); and removing the heat cured balloon from the mandrel (Column 11, lines 28-29).

### *Double Patenting*

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

Art Unit: 1732

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claim 31 is provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 31 of copending Application No. 10/698874. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.
